Antietam SD + TExpL

**Uncovering the Genius that
Resides in Every Learner**

**TOTAL EXPERIENCE
LEARNING®**
ALBRIGHT COLLEGE

- Total Experience Learning® (TExpL) at Albright College neighbors the Antietam School District + the Antietam Valley community.
 - Because of proximity and commitment to educational excellence, we will partner to create a safe and exciting learning environment for students at ASD.
 - Allowing our 6th grade students to attend class on a college campus so close to their homes will hopefully provide parents and families with enthusiasm and comfort, knowing the full resources of the campus will be behind these students, and their teachers, every step of the way.
-

What is the TExpL Academy Model?

TExpL School Academy offers middle- and high-school students TExpL instruction directly from Albright facilitators and TExpL educators. Currently two pilots with local schools engage in TExpL learning approaches, either in cohorts at the school site or at the TExpL Center on Albright's campus, while meeting the requirements of the state curriculum.

Why Albright College Campus?

- Students will be given a unique opportunity to spend their 6th grade year on site at Albright College's campus. **This early exposure to college campus will provide unexpected opportunities for access to college-level resources, support, faculty, and equipment.** Albright College will be responsive to student + teacher needs, while also being flexible with alternative learning spaces to make the transition as seamless as possible.

Antietam SD + TExpL

**How does this work
in the classroom?**

**TOTAL EXPERIENCE
LEARNING®**
ALBRIGHT COLLEGE

- TExpL will provide trained facilitators in each sixth grade classroom.
 - These facilitators will work side by side with our Antietam classroom teachers to ensure that each student is met with personalized, immersive experiences to learn in the Total Experience Learning® methodology.
-

Additional Support on Campus

- Albright College student interns will provide help to students while they navigate the campus, provide transitional support, and to offer their own experiences.
- We believe the interns will have relatability to the students, serving role models and mentors to the sixth graders.

Supporting our Teachers

- TExpL is uniquely positioned to support Antietam SD teachers + administrators. A major part of TExpL's core programming is **educator professional development, and creating peer-to-peer spaces for teachers in Berks County to share thinking and best practice.**

Supporting our Teachers

- TExpL will offer professional development training to Antietam SD teachers, as well as invite them to our weekly “Educator Sanctuary,” held on Albright’s campus, where any teacher in our programming can take advantage of networking, sharing best classroom practices, health and wellness activities, and so much more.
- **We know Antietam teachers and administrators are working on overload to ensure a great 2023-2024 school year, and we must do everything we can to support them!**
